✪ DMC-666 christmas red - br

Hi, thank you for downloading this pattern. This design is for an 8.5 inch by 2.5-inch bookmark sewn on 14-count Aida cloth.

This sample is shown with Alan Turing backstitched with DMC 310 on white Aida cloth.

 If you prefer to stitch on black Aida cloth, backstitch Alan Turing in DMC 415.

If you would like to add a tassel, follow these simple instructions.

https://www.tinymodernist.com/pages/how-to-make-an-embroidery-thread-tassel

To complete your bookmark, cut out felt to the size of the completed design. If you decided to add a tassel, glue this between the layers of the Adia cloth and the felt. Complete your bookmark by using Aleene's tacky glue to glue felt to the back of the bookmark.

You can follow these instructions.
